

## Editorial Scope

AsiaIntervention Journal is an international, English language, peer-reviewed journal whose aim is to create a forum of high quality research and education in the field of percutaneous and surgical cardiovascular interventions.

It is released twice in paper and electronic formats. AsiaIntervention has applied for indexation in the Science Citation Index® (ISI), SciVerse Scopus, MEDLINE®/PubMed®.

## Online submission

Articles can be submitted by email to:  
submission@asiaintervention.org

## Contact

Submission enquiries should be directed to  
editorial-office@asiaintervention.org

## Guidelines for authors

AsiaIntervention follows the recommendations of the ICMJE – International Committee of Medical Journal Editors: “Recommendations for the Conduct, Reporting, Editing and Publication of Scholarly Work in Medical Journals”, available online at <http://www.icmje.org> and COPE – Committee on Publication Ethics (COPE) code of conduct for editors. AsiaIntervention follows COPE’s guidelines.

## General guidelines for manuscript preparation

Please read the instructions below carefully. Manuscripts that do not adhere to the submission guidelines will be returned to the authors.

### ETHICAL GUIDELINES

The authors are responsible for the content of the manuscript. All of the authors must have read and approved the manuscript. Studies involving experimental animals and humans must conform to the guiding principles of the Declaration of Helsinki.

Studies must have been approved by the Institutional Committee on Human Research at the author's institution and human subjects must have given informed consent for participation in the study.

Manuscript submissions should conform to the guidelines of the ICMJE: "Recommendations for the Conduct, Reporting, Editing and Publication of Scholarly Work in Medical Journals," available online at <http://www.icmje.org>

### Cover letter

Manuscripts must be accompanied by a cover letter. This letter should:

- (1) specify concisely the significance of the paper, the novelty and the message, the relation to daily practice and the incremental value compared with existing literature;
- (2) declare that the paper is not under consideration elsewhere;
- (3) declare that none of the paper's contents have been published previously;
- (4) declare that all authors have read and approved the manuscript;
- (5) make full disclosure of any potential conflict of interest for each and everyone of the listed authors;
- (6) designate one corresponding author

Please note that authorship and affiliation will not be changed after acceptance.

If your paper is a EuroIntervention transfer paper, please cite this together with the EIJ manuscript number.

If your manuscript has been formally reviewed by EIJ, we would ask you to revise your paper in accordance with the reviewer comments and submit the revised paper to us with the rebuttal letter.

If your manuscript has not been formally reviewed by EIJ, please mention it in your cover letter and on the submission website.

A list of suggested objective reviewers may also be provided.

### General format

Prepare your manuscript text using a Word processing package (save as .doc / .docx). Submissions in PDF form are not permitted. Oxford (UK) English style and spelling should be used. Manuscripts should be double-spaced, including text, tables, legends and references. The number of tables, figures and references should be appropriate for the manuscript content. Tables must also be submitted in Word form, JPEG are not acceptable (see below). Please be aware that if you exceed the recommended word count the Editors reserve the right to decline the manuscript for peer review.

Please enter the information in Editorial Manager exactly as it appears in your manuscript, i.e., authors names, authors academic affiliations, keywords, conflict of interest...

- Title page** | The title page should include the following:
- (1) The **title**.
  - (2) The **name(s) of the author(s)** (including full first name and middle initial). Up to 12 co-authors will be accepted.
  - (3) The **authors' academic qualifications** (e.g., MD, PhD, etc.).
  - (4) **Department(s) and institution(s) to which the authors are affiliated**. List the current affiliations of all authors and link the authors' names and affiliations by "1", "2", "3", etc., after each author's name, before the degree(s)/qualification(s) and before the list of affiliations.
  - (5) **Short running title** (no more than 50 characters including spaces).
  - (6) **Corresponding author** - only one corresponding author will be accepted. Full name, postal address and e-mail address of the author to whom the printer's proofs and all communications should be sent.
  - (7) **Conflict of interest statement** - all the authors of a paper must make a formal disclosure of any financial associations that might pose a conflict of interest in connection with the submitted article at the time of submission in the *Cover letter* as well as in the *Conflict of interest statement*. If none of the authors has a conflict of interest, please state clearly that there are no conflicts of interest, using the wording "The authors have no conflicts of interest to declare." If one or more of the authors has declared a conflict of interest, the remaining authors must state clearly that they have no conflicts of interest to declare. All authors must be covered by the *Conflict of interest statement*.  
Examples of possible conflicts are: consultancies, corporate appointment, stock ownership or other equity interest or patent-licensing arrangements, etc.  
If none of the authors has a conflict of interest, please state clearly that there are no conflicts of interest, using the wording "The authors have no conflicts of interest to declare."
  - (8) **Total word count** - the total word count of the manuscript (including Title Page, Abstract, Text, References, Tables and Figures Legends)
  - (9) A head and shoulders portrait of the first author (300 dpi /high resolution image) must be submitted.

**Abstract** | Abstracts may not contain more than 200 words. The abstract must be formatted with the following headings: (1) Aims, (2) Methods and results, (3) Conclusions.

**Classifications** | A maximum of six keywords may be submitted.

**Abbreviations** | All abbreviations and acronyms should be expanded upon first use in the text, and thereafter the abbreviation/acronym should be used.

**Condensed abstract** | Condensed abstracts may not contain more than 100 words.

**Tables** | Tables must be submitted in Word document format only. Do not use images for tables (for example: JPEGs, screenshots and other images will not be accepted). Tables must have the table number and title clearly indicated. Tables must be cited in numerical order in the text. All abbreviations used within the tables must be listed in alphabetical order in a footnote appearing beneath the table. Tables must be numbered using Arabic numerals both within the text and in the accompanying captions. Label tables carefully when submitting.

## Figures, line drawings and graphs

The number of submitted figures should be appropriate to avoid redundancy and promote clarity. Figures must be saved in JPEG or TIFF format at a resolution of at least 300 dpi (dots per inch). The size of each image must preferably be a minimum of 8 cm×8 cm. This size is equivalent to one column width of printed text. Label figures carefully when submitting.

Figures must be numbered using Arabic numerals. For figures in a panel format please use the following notation: Figure 1A, Figure 1B, Figure 1C, etc., for the different panels. All abbreviations used must be listed in alphabetical order in a footnote under the figure.

All figures must be referred to and cited in numerical order in the text. If one panel of a Figure is referred to, then all panels of that Figure must be referred to, and appear in alphabetical order in the text. If this is not appropriate, simply refer to the Figure number and omit mention of the panels.

All figures must have a title and a legend which should be listed in your manuscript **after** the References.

## Permissions

It is the author's responsibility to obtain permission from the copyright holders: copyright applies to photographs and original artwork for diagrams and it is courteous to seek permission for extensive use of factual matter in a table or box. Journals, not authors, usually retain copyright for articles.

## Moving images

Please note that the Editorial Board actively encourages the submission of moving images relating to the online publication. Please use AVI, Quicktime, DivX, AVI, MP4 or WMV format for moving images. We recommend a maximum of 8 moving images. For each moving image the maximum size is 100 MB and each should be accompanied by a descriptive legend placed after the References in the manuscript, under the subtitle "Online data supplement".

Please contact the Editorial Office for moving image submission assistance at: [editorial-office@asiaintervention.org](mailto:editorial-office@asiaintervention.org)

## Impact on daily practice

In no more than 3 sentences (i.e., 125 words=900 characters with spaces), please explain the clinical significance of your article, underlining the "take-home" message that you believe a reader should retain for their daily practice.

## Acknowledgements

The contributions of individuals whom the authors would like to acknowledge should be listed in the Acknowledgements section above the Funding and/or Conflict of interest statement.

## Funding

All sources of funding should be acknowledged in this section.

## Conflict of interest statement

All authors must disclose their conflict of interest in relation with the manuscript by filling the ICMJE disclosure of potential conflicts of interest (COI) form available at: <http://www.icmje.org/conflicts-of-interest/>

Each author's form must be submitted even if there is no conflict of interest. The corresponding author must ensure that all authors adhere to this policy prior to submission. Manuscripts will be sent back to the authors if all the forms are not submitted.

## References

References in the main body of the article/text must be cited using Arabic numerals in brackets and numbered in the order cited. These should be placed before, not after, sentence punctuation. References in an Online supplement must be numbered consecutively to the references in the print paper. Example: If you have 10 references in the main part of the manuscript, then the references in the Online data supplement would start with number 11.

The following will not be accepted as references:

- Personal communications
- Abstracts
- Manuscripts submitted and not accepted
- Manuscripts in press
- Oral presentations at Congresses

References listed at the end of the article/text must appear in the following format:

### Journal:

**Format:** #. Author of article AA, Author of article BB, Author of article CC. Title of article. Abbreviated title of journal in italics. Year;vol:page number(s).

**Example:** 1. Fitzgerald E, Morrison V, Shaffy R. Drug-induced disorders of the liver. *EuroIntervention*.1980;24:130.

Please note:

- **No “et al” citations will be accepted – please list all author names.**
- EuroIntervention does **not** include issue numbers, e.g.: *Circulation*. 1980;24(1):17-30.
- Use the Index Medicus abbreviations for journal names (in italics followed by a full stop), e.g., *N Engl J Med*. (not NEJM).

### Chapter in a book:

**Format:** #. Author of part, AA. Title of chapter or part. In: Editor A, Editor B, editors. Title: subtitle of book. Edition (if not the first). Place of publication: Publisher; Year. p. page numbers.

**Example:** 2. Ford HL, Sclafani RA, Degregori J. Cell cycle regulatory cascades. In: Stein GS, Pardee AB, editors. Cell cycle and growth control: bio-molecular regulation and cancer. 2nd ed. Hoboken, NJ, USA: Wiley-Liss; 2004. p. 42-67.

### Book:

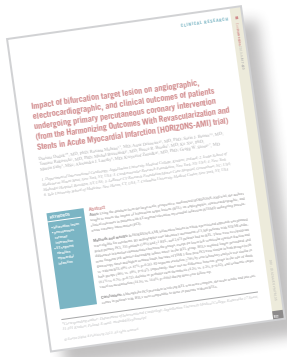

**Format:** #. Author(s) AA. Title: subtitle. Edition (if not the first). Vol. (if a multi-volume work). Place of publication: Publisher; Year. p. page number(s) (if appropriate).

**Example:** 3. Lawhead JB, Baker MC. Introduction to veterinary science. Clifton Park, NY, USA: Thomson Delmar Learning; 2005.

## Article categories

The following information should be noted for these categories:

### CLINICAL and PRE-CLINICAL, EXPERIMENTAL, EXPERT REVIEWS

Submitted manuscripts must not exceed 5,000 words, including abstract, references, figure legends and tables. If the authors exceed the word count, the Editors will not consider the manuscript for peer review. These papers should be divided into the following sections:

- (1) Title page
  - (2) Abstract
  - (3) Keywords
  - (4) Condensed abstract
  - (5) Abbreviations
  - (6) Introduction
  - (7) Methods
  - (8) Results
  - (9) Discussion
  - (10) Impact on daily practice
  - (11) Acknowledgements, if appropriate
  - (12) Funding
  - (13) Conflict of interest statement
  - (14) References
  - (15) Figure legends
  - (16) Appendices, if applicable
  - (17) Tables in text form
  - (18) Figures
  - (19) Online data supplement legends, if applicable.
- You may find it useful to use the above list as a checklist.

### EDITORIALS

All editorials should be limited to 1,500 words (including references, figure legends and tables), with a maximum of 10 references. It is strongly recommended that an Editorial is accompanied by an original figure or a table. Generally an Editorial is on an "invitation only" basis.

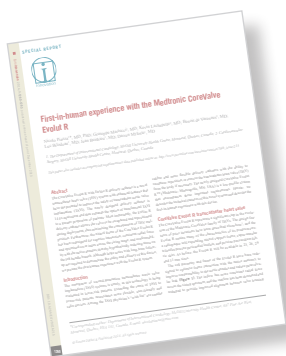

Please do not submit unsolicited editorials.

### LETTERS TO THE EDITOR

Letters to the Editor should be submitted within the 8 weeks following publication of the article in the Journal. The letter should not exceed 500 words and the Editors will solicit a reply from the authors of the article. Letters and their responses will be published online only. They should have no tables or figures, and no original data may be included. Please note that the prerogative remains with the Editors to accept or decline the letter for publication.

### SPECIAL REPORTS / FIRST IN MAN

Generally a special report is on an "invitation only" basis. However, incidental special reports are welcome. A special report is a paper based on a new technology applied in patient treatment and therefore is considered as the reporting of a "first-in-man" case. The special report is published in the print and electronic versions of AsiaIntervention and should always contain accompanying moving images for the online publication of the paper. Special reports should not exceed 1,500 words (including references, figure legends and tables). If the authors exceed the word count, the Editors will not consider the manuscript for peer review.

## NEW INNOVATION

The goal of the new innovation section is to describe a new innovation as it develops from its first appearance in the blueprints, through bench testing and animal models, leading to final use on patients. We are particularly interested in technical descriptions of devices, since a common complaint from interventionalists is that devices often have poor or incomprehensible technical reports. Articles submitted under “New innovation” must not exceed 1,500 words (including a maximum of 5 references, figure and/or moving image legends and tables). If the authors exceed the word count, the Editors will not consider the manuscript for peer review.

## SHORT REPORT

In some cases, a short report might be considered for peer review. Short reports are generally updates of previously published trials. Short reports must not exceed 1,500 words (including references, 2 tables and 2 figures). If the authors exceed the word count, the Editors will not consider the manuscript for peer review.

## TOOLS AND TECHNIQUES

This is a series of educational articles, in line with conventional practice, covering basic and advanced interventional and diagnostic techniques. The series is allied to the educational arm of EuroPCR and will have interactive, online learning and communication content.

The chapters are written with the intention of providing a clear practical, step-by-step teaching source and reference for cardiovascular intervention. The emphasis is very much on a practical approach and the complete work will encompass all the major cardiovascular procedures: coronary and peripheral intervention, structural heart disease and invasive imaging.

Generally a Tools and Techniques Clinical or Tools and Techniques Statistics article is published on an “invitation only” basis.

## IMAGE IN CARDIOLOGY

This category is reserved for exceptional high-quality images. The high-resolution image must be submitted with no more than a 250-word description, including the figure title and legend. References will not be accepted. Authors are encouraged to submit moving images to accompany the figure for the online version. If the authors exceed the word count, the Editors will not consider the manuscript for peer review.

## HOW SHOULD I TREAT?

This type of article contains three parts:

**Part 1 - How should I treat?** Authors present a challenging case without discussing the different potential clinical management plans.

**Part 2 - How would I treat?** Guest experts will be invited by the Editor to share their opinions regarding their preferred treatment plan.

**Part 3 - How did I treat?** The submitting authors will present the actual treatment.

### The rules of this type of article:

The guest experts will be blinded to the actual treatment and the submitting authors will be blinded to the experts' opinions.

## INSTRUCTIONS FOR AUTHORS PRESENTING THE CASE

### Part 1 - How should I treat?

1. **Title:** Should always include the prefix: "How should I treat?"  
Example: How should I treat an unusual referral for heart transplantation?
2. **Title page**  
(see all required fields for the Title page on page 2 of this PDF)
3. **Case summary**  
The Case summary section is broken down into 5 sections: Background, Investigation, Diagnosis, Management and Keywords.  
No more than 2 sentences (40 words max.) for any one of the first 4 parts plus no more than 6 keywords.
4. **Presentation of the case**  
The presentation of the case must not exceed 1,000 words, including references and figure legends. The presentation should conclude with your treatment dilemma and may be formulated as a question.

### Part 3 - How did I treat?

1. The **Title** of this part should be "**How did I treat? Actual treatment and management of the case**".
2. **Actual treatment and management of the case**  
The "Actual treatment and management of the case" part must not exceed 1,000 words, including references and figure and moving image legends.
3. **Conflict of interest statement** - all the authors of a paper must make a formal disclosure of any financial associations that might pose a conflict of interest in connection with the submitted article at the time of submission in the *Covering letter* as well as in the *Conflict of interest statement*. If one or more of the authors has declared a conflict of interest, the remaining authors must state clearly that they have no conflicts of interest to declare. All authors must be covered by the *Conflict of interest statement*.  
Examples of possible conflicts are: consultancies, corporate appointment, stock ownership or other equity interest or patent-licensing arrangements, etc...  
If none of the authors has a conflict of interest, please state clearly that there are no conflicts of interest, using the wording "The authors have no conflicts of interest to declare."
4. References, if applicable.
5. Figures and Figure legends, if applicable.
6. Moving images and Moving image legends, if applicable. Please note that the Editorial Board actively encourages the submission of moving images for the website publication.

## INSTRUCTIONS FOR THE INVITED GUEST EXPERTS

### Part 2 - The invited experts' opinion

1. **Title.** The title of this section will be “How would I treat? The Invited Experts’ Opinion”.
2. **Title page.** The title page should include the following:
  - (1) The **title**.
  - (2) The **name(s) of the author(s)** (including full first name and middle initial). Up to 12 co-authors will be accepted.
  - (3) The **authors’ academic qualifications** (e.g., MD, PhD, etc.).
  - (4) Departments and institution(s) to which the authors are affiliated. List the current affiliations of all authors and link the authors’ names and affiliations by “1”, “2”, “3”, etc., after each author’s name, before the degree(s) and before the list of affiliations.
  - (5) **Short running title** (no more than 50 characters including spaces).
  - (6) **Corresponding author** - only 1 corresponding author will be accepted. Full name, postal address, telephone number, fax number and e-mail address of the author to whom communication and printer’s proofs should be sent.
  - (7) **Conflict of interest statement** - all the authors of a paper must make a formal disclosure of any financial associations that might pose a conflict of interest in connection with the submitted article at the time of submission in the *Covering letter* as well as in the *Conflict of interest statement*. If one or more of the authors has declared a conflict of interest, the remaining authors must state clearly that they have no conflicts of interest to declare. All authors must be covered by the *Conflict of interest statement*.  
Examples of possible conflicts are: consultancies, corporate appointment, stock ownership or other equity interest or patent-licensing arrangements, etc...  
If none of the authors has a conflict of interest, please state clearly that there are no conflicts of interest, using the wording “The authors have no conflicts of interest to declare.”
  - (8) **Total word count:** The total word count of the manuscript (including Title Page, Abstract, Text, References, Tables and Figures Legends).
3. **References**, if applicable.
4. **Figures** and **Figure legends**, if applicable.
